CARLO LIZZA & SONS PAVING, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

1. Summary of Significant Accounting Policies

Nature of Business

Carlo Lizza & Sons Paving, Inc. ("the Company") is engaged in various types of road construction and paving for governmental, institutional and commercial projects. Revenue is primarily derived from fixed price and unit price contracts. The lengths of the Company's contracts vary, typically ranging from one month to two years. The Company's contracts are performed within the New York City and Long Island areas.

Cash Equivalents

The Company considers securities with maturities of three months or less when purchased, to be cash equivalents.

Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Revenue is recognized on contracts utilizing the percentage-of-completion method based upon the performance of services pursuant to contractual terms, measured by the percentage of cost incurred to date, to estimated total cost for each contract. This method is used as management considers total cost to be the best available measure of progress on the contracts.

Under this method, amounts shown as over-billings (billings in excess of costs and estimated earnings on contracts in progress) are reported as liabilities. Amounts recorded as under-billings (cost and estimated earnings in excess of billings) are reported as assets.

Revenues from cost-plus-fee contracts are recognized on the basis of costs incurred during the period plus the fee earned.

Contract costs include all direct material, labor, subcontractor cost, equipment cost, and those indirect costs related to contract performance such as indirect labor, supplies, tools and repair costs. Selling, general and administrative costs are charged to expense as incurred. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined.

1. Summary of Significant Accounting Policies – (Continued)

Property, Plant and Equipment

Depreciation of property, plant and equipment is provided utilizing both the straight line and accelerated methods over estimated useful lives of the respective assets as follows:

Transportation equipment	5 years
Computer equipment	5 to 7 years
Machinery and equipment	5 to 7 years

Income Taxes

The company has not taken an unsubstantiated tax position that would require provision of a liability under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740-10 (formerly FIN Interpretation No. 48), "Accounting for Uncertainty in Income Taxes. Under ASC 740-10, an Association must recognize the tax benefit associated with tax positions taken for tax return purposes when it is more-likely-than-not that the position will be sustained.
